

ABHISHEK

EMBEDDED ENGINEER

dwivediabhishek8858@gmail.com

Electronic City Bengaluru (560100)

+91 8858724062

SUMMARY

Seeking an entry-level Embedded Engineer position to gain industry experience, improve technical skills, and learn from experienced professionals while contributing to team goals.

EDUCATION

Post graduate certification programme in Embedded System Design CDAC- Bengaluru	Feb 2026-present
B.Tech in Electronics & Communication Axis Institute Of Technology & Management , Kanpur	2020-2024
Class XII (PCM) SVM Inter College , Banda	2020
Class X SVM Inter College , Banda	2018

PROJECTS

AI-Enabled Predictive Maintenance System for Industrial Machines Using IoT and Edge Computing

Role: IoT & ML Developer

- Developed an IoT-based machine monitoring system.
- Applied machine learning models for failure prediction.
- Reduced downtime through predictive maintenance.

Onboard Surveillance Camera Robotic Vehicle

Role: Embedded Systems Developer

- Designed a robotic vehicle with surveillance capabilities.
- Integrated face recognition and multiple sensors.
- Worked on hardware implementation and testing.

IoT-Based Home Automation Security System

Role: IoT Developer

- Developed a smart home automation system using IoT.
- Integrated sensors for security monitoring.
- Implemented motion detection and alert mechanisms.

SKILLS

Technical Skills

- Embedded C Programming , Python Basics
- ARM & STM32 Microcontrollers
- Data Structures & Algorithms
- UART, SPI, I2C & CAN Protocols
- RTOS & Embedded Linux Basics
- Hardware Interfacing & Firmware Development

Non Technical Skills

- Flexible with technology
- Passionate for Research
- Organizational Skills
- Effective Communication & Leadership
